Risk Levels	Little to None	Minor	Moderate	Major	Extreme
-------------	----------------	-------	----------	-------	---------

Weather Key Points

Regional Operations Center

Western Region

Monday, December 5

- Lower elevation rain and mountain snow will continue over much of central and northern California through Monday, gradually decreasing in coverage Monday afternoon and evening
 - Moderate winter travel impacts will likely continue over the higher elevations due to accumulating snowfall, with gusty winds producing areas of blowing snow across the Sierra
- Some light showers are possible across central and southern California for Tuesday into early Wednesday, but in general drier conditions will develop across the state heading into midweek
- Colder temperatures will return to many areas of the state through the middle and latter portions of next week
- A couple of storm systems are expected to push into northern California late week, with the first storm arriving on Thursday, and the second storm currently expected to move through late Friday into Saturday
 - Valley rain and light to moderate mountain snow is generally expected, though lower snow levels could bring travel impacts to some foothill locations
 - Generally minor to locally moderate impacts are currently expected, including some mountain travel impacts
- The active weather pattern may continue through the weekend and early next week

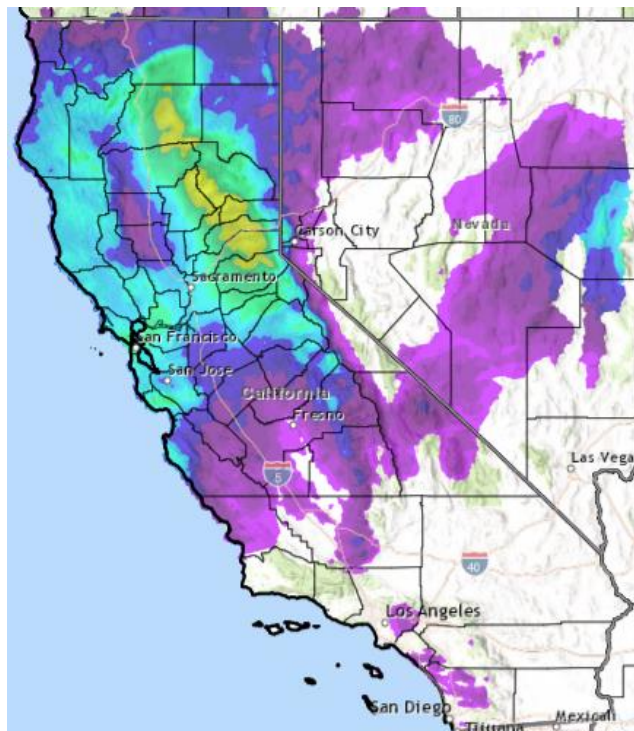

Daily Precipitation Forecast

Regional Operations Center

Western Region

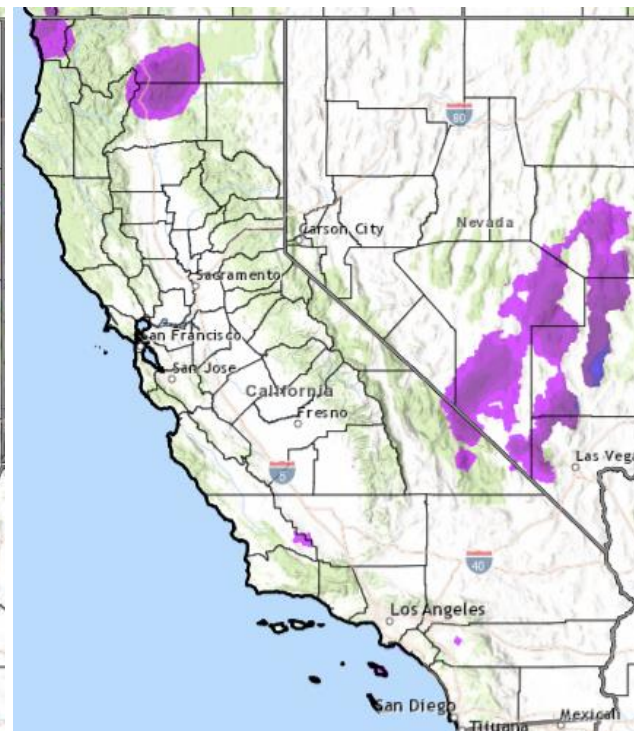

Monday, December 5

Monday

Tuesday

Wednesday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Monday, December 5

6-10 Day Outlook (December 10 - December 14)

Temperatures

- Below normal temperatures are favored to continue statewide

Precipitation

- Above normal precipitation is also favored statewide

8-14 Day Outlook (December 12 - December 18)

Temperatures

- Below normal temperatures are favored to continue

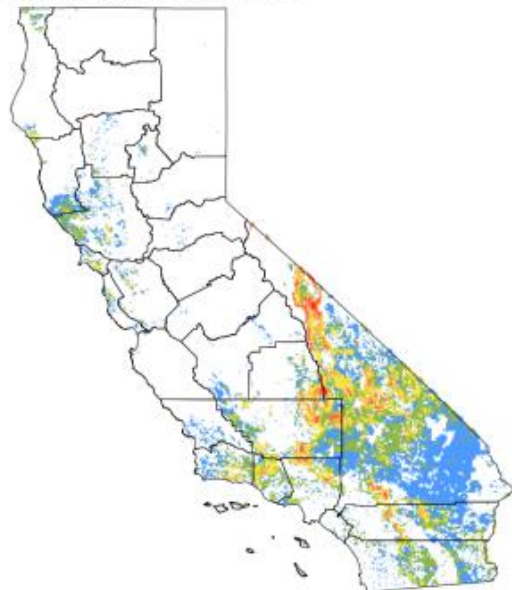

Precipitation

- Above normal precipitation is favored for most areas, with the exception of far southern California where near normal precipitation is favored

OF EMERGENCY SERVICES

Wildfire Forecast and Threat Intelligence Integration Center

Weekly Fire Potential and Weather Forecast

Northern Region

- Fuel flammability has lessened considerably and will remain less flammable during the 7 day forecast period thus little to no large fire risk across the entire region.
- Snow cover should be fairly expansive above 3500-4000 feet.
- Dead fuel moisture values will generally be near to above normal during the next 7 days. ERCs will be near to below normal with continued improving readings due to the cool/unsettled weather pattern.
- Herbaceous grass and forbs are exhibiting a light flush of green-up, generally below 1500 to 2500 ft and the abundant soil moisture should jump start some additional growth across the lower elevations although the cooler temperatures will mute the jump start initially. The abundant standing dead from the previous growing season will remain until the combination of precipitation/wind and green-up can "melt" or alter the fuel bed.
- Live Woody Brush-Shrubs & Tree Canopies are likely in a mixed state of flammability. Dormancy has set in across the mid & upper elevations with little change expected. Some new growth, especially in Chamise, will re-initiate across the lower elevations thanks to the additional soil moisture but the cooler than normal temps have slowed that process thus continuing a fairly flammable regime based on the limited fuel samples taken during November.

Southern Region

- There will be little or no fire activity across the region through the forecast period.
- A low pressure area located off the Northern CA coast will bring rain to the northern half of the state through Tuesday night with scattered light showers occurring further south. Weak ridging will bring drier and slightly warmer weather Wednesday and Thursday. An active jet stream may bring showers to much of Central and Northern CA late this week and into the weekend.
- Bands of rain will move through Central CA today and Tuesday, resulting in up to 0.50" of rain along the central coast and Sierras north of Fresno County. Southern CA may have its best chance of rainfall Tuesday night when 0.10-0.20" of rain may fall.
- The snow level will generally be 5,000 feet in Central CA and the Sierras may receive 3-6" of snow through Tuesday. Southern CA mountains may get an inch or two of accumulation above 6,000 feet.
- Temperatures will remain below normal this week with Tuesday likely being the coolest day for most areas. Wednesday and Thursday will see coastal and lower valley temperatures reach the lower 60s with partly cloudy skies returning. Cloudier and cooler weather will return by next weekend.

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

2022 November Ebola Virus Event

The Medical and Health Coordination Center (MHCC) was activated on 11/09/22 at Level 3 (low) in response to 2022 Ebola Virus Event. The CDC released a Health Alert Network (HAN) health advisory regarding the Outbreak of Ebola Virus Disease (EVD) (Sudan ebolavirus) in Central Uganda. No suspected, probable, or confirmed EVD cases related to this outbreak have yet been reported in the United States.

- The MHCC will continue to be open at 0800 hours to 1700 hours Monday through Friday until further notice.

2022 Pediatric Surge

The California Department of Public Health (CDPH), Emergency Medical Services Authority (EMSA) and Department of Healthcare Services (DHCS) have activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to 2022 Pediatric Surge on 11/16/22 at 1500 hours.

- The MHCC will continue to be open 0800 hours to 1700 hours Monday through Friday until further notice.

2022 May Mpox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Mpox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Mpox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

2022 Early December Winter Storm Event

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated at Level 1 in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 10/17/22, Governor Newsom unveiled the "[California Smarter Plan Updates October 2022](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions. Governor Newsom is set to lift the State of Emergency in early 2023, and this update provides information on California's progress to date and how we move forward.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 11/30/22 at 1630 hours:

- 10,651,573 total confirmed cases.
 - 40,498 Delta
- 96,803 total deaths.
 - 102 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-84074 12/4/22, 1207 hours.** The IERCC reported an inReach activation, at coordinates 32.917717 -116.813817, plotting to Forest Rd 13S10 in San Diego county. The R/O activated her device on behalf of a 45 yr old male subject not in her party who reportedly fell 200 feet and is unconscious with no pulse. San Diego Sheriff's Dept (SDSD) contacted/briefed and advised they were launching an airship and ground team. Update: 1235 hrs., SDSD Helo on scene with the R/O and another citizen assisting the injured party. Helo crew advised no easy access for ground team. **Update: 1336 hours,** SDSD confirmed the injured subject is deceased, and they are coordinating with the fire department on the recovery of the remains. I confirmed with IERCC that the R/O of the device sent a cancel signal. **Mission Closed.**
- **2022-LAW-83990, 11/28/22, 1215 hours:** The Fresno County Sheriff's Office SAR Coordinator contacted LDO directly requesting 20 Type IV ground searchers for a missing 86 YOA male with Alzheimer's. MP walked away from his residence south of Fresno on 11/25/22 – Fresno S/O requesting support for their on-going search. Available resources will respond 11/29/22 to the ICP at 1701 W. Jensen Fresno for 0800 briefing: Merced S/O 1 deputy and 2 SAR volunteers, Madera S/O 2 deputies and 2 SAR volunteers, King S/O 4 horseback deputies, Tulare S/O 2 deputies and 2 SAR volunteers. **Update 11/29/22, 1000 hours:** Fresno S/O requests the same SAR staffing as previously requested for Wednesday, 11/30/22 and Thursday 12/1/22 – LDO coordinating request. **Update 11/29/22, 2000 hours:** SAR mutual aid staffing for 11/30/22 at 0800 hours - Kern S/O 3, Kings S/O 3, Madera S/O 2, Merced S/O 3, Tulare S/O 4. Mission On-Going. **Update 11/30/22, 1701 hours:** SAR mutual aid staffing for 12/1/22 at 0800 hours - Kings S/O 2, Madera S/O 1, Merced S/O 4, Tulare S/O pending. Fresno Sheriff also requesting 4 canines, both cadaver and trailing if possible, for 12/2/22 only, CARDA has been notified. Fresno Sheriff requesting 40 ground personnel, as many mounted as able and as many OHV (motorcycles and quads) as possible for both Saturday 12/3/22 and Sunday 12/4/22. Regions V and II have been advised of this request. AC Jared McCormick will be the POC for this campaign search starting 12/1/22 at 0800 hours. LDO is aware. **Update 12/01/22 at 2000 hours:** CARDA has provided (5) HRD's and (1) Trailing K9 for Friday at 0800 hours. Fresno's request for (40) ground searchers on Saturday and Sunday have been filled by San Mateo, Santa Clara, Marin, Madera & CalESAR. Efforts to secure more OHV's and Mounted are still underway. **Update 12/2/22, 1700 hours:** Fresno Sheriff's Office requested tents from CNG to shelter searchers overnight from the in-coming rain. CalOES was not able to support. The Canines were released from Friday's search with negative results. Saturday's mission will be filled by Tulare, Madera, Merced, Kings, San Mateo, Santa Clara, and Cal-ESAR: (50) Ground Searchers, (5) Mounted and (1) Jeep. **Update 12/3/22 @ 1900 Hrs:** There was nothing notable discovered from today's efforts by searchers. The conditions were very wet, cold and muddy. Tomorrow, (42) Ground Searchers and (2) Mounted units along with Fresno's in-house contingent will continue searching. Tulare, Madera, Merced, San Mateo, Santa Clara, and Cal-ESAR will continue to support with mutual aid. **Update 12/4/22 at 1700 Hours:** Today's search efforts yielded negative results. All Mutual Aid was released and new order for OHV Only was requested for Tuesday 12/6/22 at 0800 Hrs. A/C J McCormick is coordinating. **Mission Ongoing.**

Cal OES MISSION TASKINGS

Cal OES Missions
